

Personal data protection

Thank you for visiting our website.

General provisions

T-Systems Slovakia s.r.o. as a member of Deutsche Telekom Group, Žriedlová 13, 040 01 Košice (hereinafter the "TSSK") attaches great importance to protecting your personal data. We always inform you what personal data we collect, how your data is used, and how you can influence the process.

1. Where can I find the information that is important to me?

This **data privacy information** provides an overview of the items which apply to TSSK processing your data in this web portal.

[Binding Corporate Rules concerning personal data protection \(ENG version\)](#)

2. Who is responsible for data processing? Who should I contact if I have any queries regarding data privacy at TSSK?

TSSK acts as the data Controller. If you have any queries, please contact our Data Privacy Officer electronically to FMB_dataprivacy@t-systems.com or by post to:

T-Systems Slovakia s.r.o.

DRCI Department / Data privacy officer

Žriedlová 13

040 01 Košice

3. What rights do I have?

You have the right

- a) To request **information** on the categories of personal data concerned, the purpose of the processing, any recipients of the data, the envisaged storage period (Art. 15 GDPR);
- b) To request incorrect or incomplete data is **rectified** or supplemented (Art. 16 GDPR);
- c) To **withdraw** consent at any time with effect for the future (Art. 7 (3) GDPR);
- d) To **object** to the processing of data on the grounds of legitimate interests, for reasons relating to your particular situation (Art 21 (1) GDPR);
- e) To request the **erasure** of data in certain cases under Art. 17 GDPR – especially if the data is no longer necessary in relation to the purposes for which it was collected or is unlawfully processed, or you withdraw your consent according to (c) above or objected according to (d) above;
- f) To demand under certain circumstances the **restriction** of data where erasure is not possible or the erasure obligation is disputed (Art. 18 GDPR);
- g) To **data portability**, e. you can receive your data which you provided to us, in a commonly used and machine-readable format, such as CSV and can, where necessary, transmit the data to others (Art. 20 GDPR);
- h) To **file a complaint** with the competent **supervisory authority** regarding data processing

4. Who does TSSK pass my data on to?

To processors, i.e. companies we engage to process data within the legally defined scope, Art. 28 GDPR (service providers, agents). In this case, TSSK also remains responsible for protecting your data. We engage companies particularly in the following areas: IT, sales, finance, consulting, customer services, HR etc.

To cooperation partners who, on their own responsibility, provide services for you or in conjunction with your TSSK contract. This is the case if you contract with us services from these partners or if you consent to the incorporation of the partner or if we incorporate the partner on the basis of legal permission.

Owing to legal obligations: In certain cases, we are legally obliged to transfer certain data to the requesting state authority.

5. Where is my data processed?

In general, your data is processed in the territory of the Slovak Republic and in other European countries.

If your data is also processed in countries outside the European Union (i.e. in third countries) by way of exception, this is done only if you have explicitly given your consent or it is required so we can provide you with services or it is prescribed by law (Art. 49 GDPR). Furthermore, your data is only processed in third countries if certain measures ensure a suitable level of data protection (e.g. EU Commission's adequacy decision or suitable guarantees, Art. 44 ff. GDPR).

6. What data is recorded, how is it used and how long is it stored?

Technical characteristics:

When you visit our websites, the web server temporarily records the domain name or your computer's IP address, the file requested (file name and URL) by the client, the http response code, and the website from which you are visiting us.

The recorded data is used solely for data security purposes, particularly to protect against attempted attacks on our web server (Art. 6 (1) f GDPR) by third-party web server provider.

7. Data control for the social media plug-ins used

Some of the services websites include buttons for social media networks (Facebook Like button, Google +1, Twitter button) that you can use to recommend the services of TSSK to your friends and family.

To ensure you retain full control of the data, the used buttons provide direct contact between the respective social network and the visitor only once you actively click on the button (one-click solution).

8. Will my usage habits be evaluated, e.g. for advertising purposes or tracking?

Explanations and definitions:

We want you to enjoy using our websites and take advantage of our products and services. We have an economic interest in ensuring this is the case. We analyze your usage habits on the basis of anonymized or pseudonymized data so you can find the products that interest you and so we can make our websites user-friendly. We or companies commissioned by us to process data create usage profiles to the extent permitted by law. This information cannot be traced back to you directly. Subsequently we inform you generally about the various purposes and techniques. Afterwards you have the right to

revoke your consent. However, please remember that in this case you may not have access to the full range of functions offered by our websites.

a) Purposes (Art. 6 (1) f GDPR – legitimate interests

Tag management

Tag management is used to manage tracking tools in websites. A tag is set for each page to do this. Based on the tag, the system can determine which tracking tools should be used for this page. Tag management can be used to specifically control tracking so that the tools are only used where appropriate.

Market research / Reach measurement

Reach measurement provides statistics on a website's usage intensity and the number of users, along with comparable figures for all the connected services. Individual users are not identified at any time. Your identity is always protected.

Cross-device and cross-partner profiles for playing out advertising and web content tailored to your interest

On our websites we record, among other things, information on your usage habits so we can play out web content and online advertising that is better tailored to your interests. We collaborate with partners so we can do this on a cross-device and cross-service provider basis. We and our partner companies issue an ID for each of the devices you use by accessing your hashed login data. This lets us assign the various issued IDs to each other in those cases where you have logged onto our websites using various devices. All partners transfer to a trusted third party the ID and the information regarding which user (login) this ID is assigned to. The trusted third party encrypts all information transferred to it. It is therefore no

longer possible to assign the information to an individual. The encrypted information is transferred to emetriq GmbH for analysis. emetriq GmbH provides the analysis results to the individual partners via the trusted third party, which then decrypts these results. This makes it possible in individual cases to assign a device to a user on a cross-partner basis, even though this user has not logged on to our websites with his or her device. We can also assign to each other your usage of our services from various devices. The advantage of this process is that the offering can be tailored to the individual's interests even without a login. Furthermore, emetriq GmbH can use the analysis results for third parties so that these third parties can also play out on their websites advertising and services tailored to the user's interests on a cross-device basis.

b) Techniques

Cookies

We use cookies for certain services. These are small text files that are stored on your computer. They enable the system to tell if you repeatedly visit websites from the same computer.

Session cookies are cookies which are only stored on your computer for the duration of your Internet session and are required for transactions (e.g. to log in or to complete a purchase). They simply contain a transaction ID.

For certain services, we use persistent cookies, which are stored on your computer for future sessions. In this case, we notify you about the cookie's storage period.

You can set your browser to prevent these cookies being stored or to delete the cookies at the end of your Internet session. However, please remember that in this case you may not have access to the full range of functions offered by our websites. For information about browser settings go to: <https://www.sicherdigital.de/sicher-surfen#sicher-surfen-browsereinstellungen>

Measurement pixels

Measurement pixels are simply images measuring 1×1 pixels. They are transparent or are the same color as the background, making them invisible. If a website is opened that contains a measurement pixel, this small image is then downloaded from the provider's server on the Internet and the download is recorded on the server. This way the process provider can see when and how many users requested this measurement pixel or visited a website. The provider can also see whether JavaScript is enabled or not in the browser. If JavaScript is enabled, additional information such as browser information, operating system, screen resolution can be recorded.

This function is normally executed by calling JavaScript; nonetheless the term measurement pixel is still used.

JavaScript

JavaScripts are used to call the application and to transfer the collected parameters to the particular service provider/measurement pixel provider.

9. Services from other companies that assume responsibility for providing their services

Google

We use Google Maps for maps, locations and route planning on individual websites, e.g. in the Store Locator, which you can access via the tab "Make an appointment in the store" on the right-hand edge of the Deutsche Telekom product pages. Google Maps is run by Google Inc., 1600 Amphitheatre Parkway, Mountain View, CA 94043, USA. By embedding Google Maps your IP address is transferred directly to Google and a cookie stored as soon as you visit this kind of website. You can obtain information and opt out at any time from data processing by Google at <http://www.google.de/intl/de/policies/privacy>.

We use the remarketing and **Google AdWords** function from Google Inc. ("Google") on our websites. This function is implemented via a cookie and is used to present website users with web advertising tailored to their interests as part of the Google advertising network. Users can then be shown on these pages advertisements which relate to content users have accessed previously on websites that use the Google remarketing function. According to its own statements, Google does not collect any personal data with this process. If you, however, do not want to use Google's remarketing function, you can disable this permanently by adjusting the relevant settings at <http://www.google.com/settings/ads>. Alternatively you can disable the use of cookies for targeted advertising via the advertising network initiative by following the instructions at http://www.networkadvertising.org/managing/opt_out.asp. Further information on Google remarketing and Google's privacy policy is available at: <http://www.google.com/privacy/ads/>.

If you access our websites via a Google ad, Google AdWords stores a cookie on your computer. This cookie becomes invalid after 30 days. No conclusions can be drawn about you as a

person. We use the information collected with the aid of this conversion cookie to create statistics about our conversion rate. This means that we find out how many users came to our websites via a Google ad and acquire a product within 30 days. If you do not wish to participate in the tracking process, you can disable cookies for conversion tracking by specifying in your browser settings that cookies from the relevant domain are to be blocked:

Google AdWords: [googleadservices.com](https://www.googleadservices.com)

Facebook:

We use the **Facebook** service **Customer Audience** and **Facebook pixel** on our websites to optimize our advertising offering, provided you have given the relevant consent to Facebook. Further information on these Facebook services and privacy information from Facebook Ireland Ltd., 4 Grand Canal Square, Grand Canal Harbour, Dublin 2, Ireland ("Facebook") can be accessed under the link <https://www.facebook.com/privacy/explanation>.

If you use a Facebook User Account, the set Facebook cookie makes the Facebook pixel aware of this on our websites. The same cookie is used to transfer the collected usage data to Facebook for analysis and marketing purposes. You can check and/or disable directly via Facebook the way in which Facebook collects, further processes and uses this data.

The Facebook pixel is a JavaScript code which transfers the following data to Facebook:

- HTTP header information (including IP address, web browser information, page storage location, document, website URL and web browser user agent, as well as date and time of use)
- Pixel-specific data; this includes the pixel ID and Facebook cookie data, including your Facebook ID (this data is used to link events to a certain Facebook

advertising account and to assign them to a Facebook user)

- Additional information on visiting our websites, as well as on standard- and user-defined data events.
 - Orders placed (sales transactions)
 - Registrations and trial subscriptions completed
 - Products searched, product information accessed

The aforementioned data processing only affects users that have a Facebook account or have accessed a Facebook partner page (whereby a cookie was set). The playing out of advertising on Facebook (partner) pages on the basis of the Customer Audience service does not affect any users that are not Facebook members.

If the Facebook ID included in the Facebook cookie can be assigned to a Facebook user, Facebook assigns this user to a target group (Custom Audience) on the basis of the rules stipulated by us, provided the rules are relevant. We use the information obtained in this way to present Deutsche Telekom advertising on Facebook (partner) pages.

If you would like to opt out from using the Facebook pixel, you can set an opt-out cookie on Facebook or disable JavaScript in your browser. Further information along with setting options for protecting your personal privacy for advertising purposes is available from the Facebook privacy guidelines at

https://www.facebook.com/ads/website_custom_audiences/.
